

Policy on School Photographs

The Board of Management wish to inform you that videos and/or photographs may be taken during your child's time in school. They may be taken for a variety of different reasons:

- documenting, promoting or celebrating our school through press coverage, websites, prospectuses etc.

Consent is obtained on enrolment form for permission to take your child's image/video recording for the purposes above. This is obtained on an "opt-in" basis. Parents/guardians should be advised to inform the school if circumstances change and they no longer wish their child's image to be taken, used or retained. Consent forms are signed by the student's parent(s)/guardian(s) and are stored carefully.

Photos may be taken by parents/guardians at school events for example, at school plays, First Communion, Confirmation, Sport's Day etc., Where this occurs we ask that people use them for personal use. Where images are being uploaded to social media or where they are being presented in any other public forum, parent's/guardians should seek the permission of parents/guardians of those children in those photos who are not their own, before doing so.
